

## **JOB VACANCY**

### **Senior IT Support Technician – Managed Services**

A rewarding opportunity for an experienced and qualified IT professional to join a vibrant, professional team in a company that promotes an inclusive and supportive culture and offers exciting career progression opportunities.

Risc IT Solutions are Cloud experts - IT professionals and trusted advisors who help companies work smarter by providing the right solutions to their business challenges. The award-winning, Microsoft CSP and pioneer of Cloud Backup in the UK, has built up strong customer and partner relationships over the last 20 years based on trust, knowledge and experience, coupled with first-class support.

#### **What would this role of Senior IT Support Technician – Managed Services entail?**

Working within the Technical Department as a Senior IT Support Technician, you'd be working within the Technical Support team to provide best practice managed services to our Total Support customers.

You'd be working remotely and on-site with customers and Risc staff to ensure services are highly available, secured and documented to allow ongoing support.

Your duties would include, although not be limited to:

- Working with sales teams and line manager to ensure proposed managed services customer requirements can be correctly defined, resourced, costed, delivered and achieved
- Being responsible for day to day management of customers' IT services including:
  - Desktops and laptops
  - Servers
  - Networks
  - Firewalls
  - Patching, OS firmware, 3<sup>rd</sup> party software
  - External services ie. Office 365
  - Creating and following client runbooks/standard operating systems
  - Automation and reporting
- Ensuring security best practices, customer and internal policies and guidance are adhered to
- Applying all security and functional updates in a timely manner to meet requirements
- Roll back/disaster recovery for customers as needed
- Document all external customer policies during onboarding phase and update when needed
- Providing additional assistance to the team as required
